

PCD SCRAPER

High-performance diamond tool designed for the efficient removal of resins, adhesives, and thick coatings from industrial floors. Manufactured with a polycrystalline diamond (PCD) segment combined with a diamond sector featuring TCK inserts.

USE:

DRY USE FOR THE REMOVAL OF ADHESIVES AND RESINS FROM CONCRETE.

ADVANTAGES:

Polycrystalline diamond segment

TCK diamond sector

Quick Lock coupling

Ideal for removing a wide range of coatings, including paint, adhesive, epoxy resin, acrylic, screed residues, adhesive tar, and elastic materials.

Not suitable for use on fresh concrete or highly abrasive surfaces.

Quick Lock

**BEST
QUALITY**

**MADE IN
ITALY**

RECOMMENDED MACHINES:

OTHER SIZES AVAILABLE:

- Quick Lock diamond tools are compatible with all tool holders ranging from $\varnothing 140\text{mm}$ to $\varnothing 430\text{mm}$. This versatility simplifies the operator's work, allowing the same line of tools to be used across different machines.
- $\varnothing 100\text{mm}$ and $\varnothing 140\text{mm}$ diameters are available with AS attachment.
- To use trapezoidal tools, a specific tool holder is required, available in sizes from $\varnothing 200\text{mm}$ to $\varnothing 430\text{mm}$.

Trapezoidale

$\varnothing 100\text{ mm} - \text{AS}$

$\varnothing 140\text{ mm} - \text{AS}$

$\varnothing 140\text{ mm} - \text{AS}$
